Analysis:
Part of this assignment is applying the Principles of Art and Design to a work of art. Some of the principles are used in all works of art. They have been present in the work you've already completed though you may not have been aware of them. The work you complete in advanced drawing and painting must make <u>conscious</u> use of the principles of art. The Analysis is about seeing how the Principles of Art and Design are used by the artist.

Some of the Principles of art and Design are*:*

Emphasis – Rhythm – Pattern – Contrast – Movement – Balance - Unity
For this project, you must focus on at least two of the Principles of Art and Design to help express your emotion or idea in your artwork. List and define the two principles you will use in this work.

Principle 1	Definition
Principle 2	Definition

What mood do you want your work to set?_____

What ***Value*** ***Key*** will work best for this?_____

Interpretation:
In Studio Art the work <u>must</u> be expressive. That is, it must express an idea or emotion. The interpretation is about creating meaning in a work of art.
